POWER YOU CAN FEEL. PERFORMANCE YOU CAN DEPEND ON.

For over 10 years, UpRev has blazed a path for 21st Century ECU tuning. Our products are proven to achieve dramatic results – we're trusted by professional racers, daily drivers and backroad warriors all over the world, to unlock the hidden potential of their rides.

With UpRev, you can take your car to the next level, with supreme control and confidence. Achieve stupendous raw speed and power, with an unrivaled and professional-level of both customization and advanced tuning capabilities. Our innovative software and hardware interfaces are easy to use, and loaded with all of the impressive features you need to get your wheels into the center of the action. Whether you're looking for demonic speed, a mid-range boost, improvement of fuel economy, or the ultimate in horsepower, UpRev offers the precision tuning that will get you there, and make your vehicle a blast to drive. We have one of the largest dealer and user networks in the industry – offering endless support, any time you need it. We currently support Nissan and Infiniti models, and plan to expand our product line to include additional makes and models in the future.
