

SYSTEM REQUIREMENTS

UpRev Osiris software has been tested in Windows XP, Vista, and Windows 7 — 32 and 64 bit.

Osiris Standard supports most Nissan and Infiniti models (2003 and newer). Core models include: 350Z, 370Z, Titan, Armada, G35, G37, Frontier, Juke, Patrol, Q50 and Q60.

If you have a non-Core model, UpRev can create a working patch, for a fee. If you have any questions, please call 512-821-9848 [option 1], or email sales@uprev.com.

TERMS AND CONDITIONS

All three (3) of the included eTune updates must be used within one (1) year of purchase and are not transferable to another vehicle platform or new owner. All Osiris interface cables come with a one (1) year warranty from the date of purchase. This warranty is non-transferable.

NOTICE: This product will not help you pass emissions if your vehicle is modified or has existing emissions associated problems.

QUICKSTART

Please see the Osiris User Guide for detailed instructions, tips, and features, if you have not used UpRev Osiris previously.

1. Visit the Support section at UpRev.com, to download the free installation software on your Windows-compatible computer. A digital copy of the Osiris User Guide [PDF format] is available there, as well.
2. Install the software, by running the executable file Installer.exe.
3. After installation, attach the included Osiris interface cable to your car's OBDII port and run the app to begin the re-flashing process (The initial flash will take about 1 minute. Subsequent flashes occur in mere seconds).
4. This installed set-up is pre-tuned, but you can achieve further customization by contacting UpRev or an authorized UpRev Pro Tuner. Three (3) eTune updates are included.
5. Get free software updates by running the UpRev updater program from the start menu shortcut.
